

Stronghold over Australia

I saw at each of the four corners of Australia a vulture.

The vulture stands for death; it works through spiritism and the worship of the forefathers of the aborigines.

I saw in the middle of Australia, at Ayers Rock, the fifth and biggest vulture. And there was a throne for the principality and power over Australia.

Down there, they are into worship of the devil. They have made covenants with the underworld, with the spirits of death. This is the demonic realm. This occurs at Ayers Rock and over the country as a whole.

The Western New Age world is connecting itself with them.

This brings the apathy and oppression over Australia.

How to overcome

The river of life is in the spirit over Australia and we have to work with it. Life overcomes death.

How to destroy the works of the devil

Daniel 7: 9 The throne of the Ancient of Days over the darkness.

We need to rule and reign out of the throne of the Ancient of Days, start to work with His power and authority to push back and bind the darkness. And worship Him that the Throne of the Ancient of Days might be established.

Daniel 7:10 The river of fire.

The river of fire out of this Throne burns up the works of the devil, the works of darkness, and the occult workers - and the antichrist.

We need to build the people up from the river of life and the glory of God.

We need to be on fire and use the fire of God to destroy the works of darkness. And pray out of this fire and release this fire over the works of darkness.

Deliverance

Occultist, spiritualistic aboriginal demons, binds many white Christian Australians. This makes them oppressed and apathetic and they resist the fire and power of God because of lack of knowledge, as this will actually deliver them and put them on fire.
