

Living Water and GLORY

the eagle and lion in place

I saw **VULTURES** in the air (this is the religious spirit or spirit of dead religion)
* Aboriginal spiritism.

They were looking for sheep.

As the sheep were weak they could attack them!

Then I saw a few eagles: these were not Gods eagles – they were the false prophets!

The sheep were not sure what to believe!

~ Then I saw a fountain in the middle of the sheep,
they were drinking; the living water, and the sheep became stronger:

Then the glory came over them; so life and protection was there

- Now the vultures and the false eagles were gone!
- They can't operate in that good environment.

Then through the living water and the glory: Eagles (prophetic people) were raised up! they were flying through the air.

The lions were raised up!

The eagles were seeing over the land and watching for danger! The lions were on the ground: defending the sheep.

Then there was a zebra: this means that it is now safe, people can come.
